

PRESENTED BY

INAUGURAL ROBINS MISSION PARTNER CHALLENGE

NATIONAL STEM ACADEMY BENEFIT

The men and women serving our great nation and its allies here at Robins AFB are crucial to our national security and community. We all have an extremely important role in remembering our past but also an equally important role in preparing our children and community for the future. Adding this challenge to our event gives us the opportunity to promote comradery amongst the many Mission Partners located at Robins AFB, our Central Georgia Community and Industry all working together to promote STEM education to develop our workforce of the future and our **Leaders of Tomorrow**. We thank you greatly for your service! Our plan is to make this an annual event with a traveling trophy and bragging rights awarded each year. We hope you'll join us.

REGISTER YOUR WINNING TEAM NOW!!
