Georgia's NASA Regional Educator Resource Center (RERC) is located in the Museum of Aviation Foundation's National STEM Academy and housed in the STEM Training Academy for Teachers (STAT).
It serves as a preview and distribution center for NASA produced educational materials which focus on STEM curriculum. The RERC offers K-12 and University educators teaching in Georgia easy access to STEM resources suitable for use in their classrooms.

Georgia's NASA RERC provides hands-on workshops for classroom teachers, pre-service teachers, informal educators, scout leaders, and home school groups. Topics are related to STEM disciplines and infuse NASA education resources into classroom curricula. The workshops at Georgia's NASA RERC are led by education specialists from the NASA Educator Professional Development program or other NASA affiliated education programs.

During each workshop educators receive NASA materials and resources, and when available, stipends for participation. All workshops are held at Georgia's NASA RERC unless otherwise noted. See the workshop schedule table for dates and topics.*

For detailed information on each of the workshop sessions please visit:

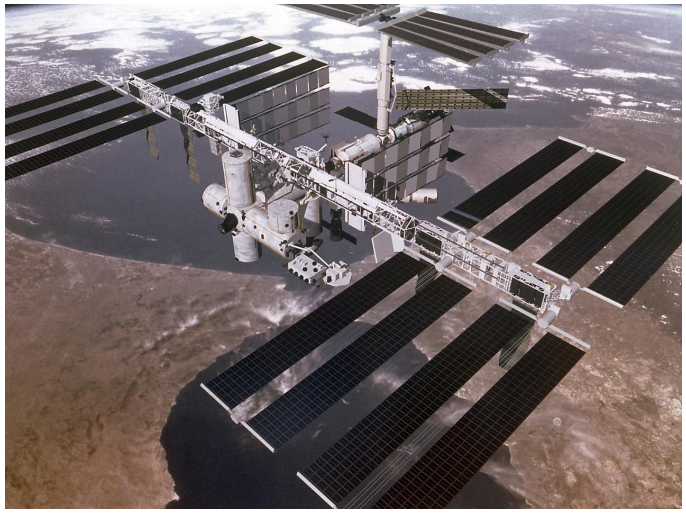
2017-2018 Workshop Schedule

Date	Workshop	Targeted
August 26, 2017	7th Annual GA NASA STEM Conference	Pre K-12
October 14, 2017	*Science & Math & Literature: Making Connections*	Pre K-5
November 11, 2017	International Space Station: *OFF THE EARTH, FOR THE EARTH*	Pre K-12
January 20, 2018	Lunar & Meteorite Sample Certification	Pre K-12
February 17, 2018	*Remote Sensing Exploration: On Earth & Ice Worlds!*	5-12
March 10, 2018	*Thinking Outside the STEM Box!* Teacher Guided Kits Student Guided Maker Spaces	Pre K-8
April 14, 2018	STEAM *Train-ing! Cross-Curricular STEM Lessons*	5-12
May 19, 2018	*Train Like A NASA Teacher!*	Pre K-12

Workshop dates and topics are subject to change.

Please check the website for any changes or contact Georgia's NASA RERC.



The STEM Educator Workshop Series at the Museum of Aviation is coordinated by Georgia's NASA RERC and supported by Georgia Space Grant Consortium, ORBIT Education Inc., National Defense Industrial Association, Raytheon Company, GEAR UP Bibb County, the Education Office at NASA Kennedy Space Center and the Museum of Aviation Foundation.

Would you like to participate in STEM related workshops that:

- Provide you with free resources to use in your classroom...
- Demonstrate hands-on activities that support standards...
- Infuse NASA curriculum support materials that demonstrate applications of STEM topics...
- Offer free sessions for formal and informal educators that include Certificates of Completion...
- Provide stipends to participants*?

Then Georgia's NASA RERC STEM Educator Workshop Series is just the thing for you! Check out our offerings for the 2017-2018 school year and contact us for the sessions you would like to attend.

Don't miss out on these great opportunities!

*Stipends are provided based on funding availability.

No guarantees are given that stipends will be available for all sessions.
