

James Webb Space Telescope

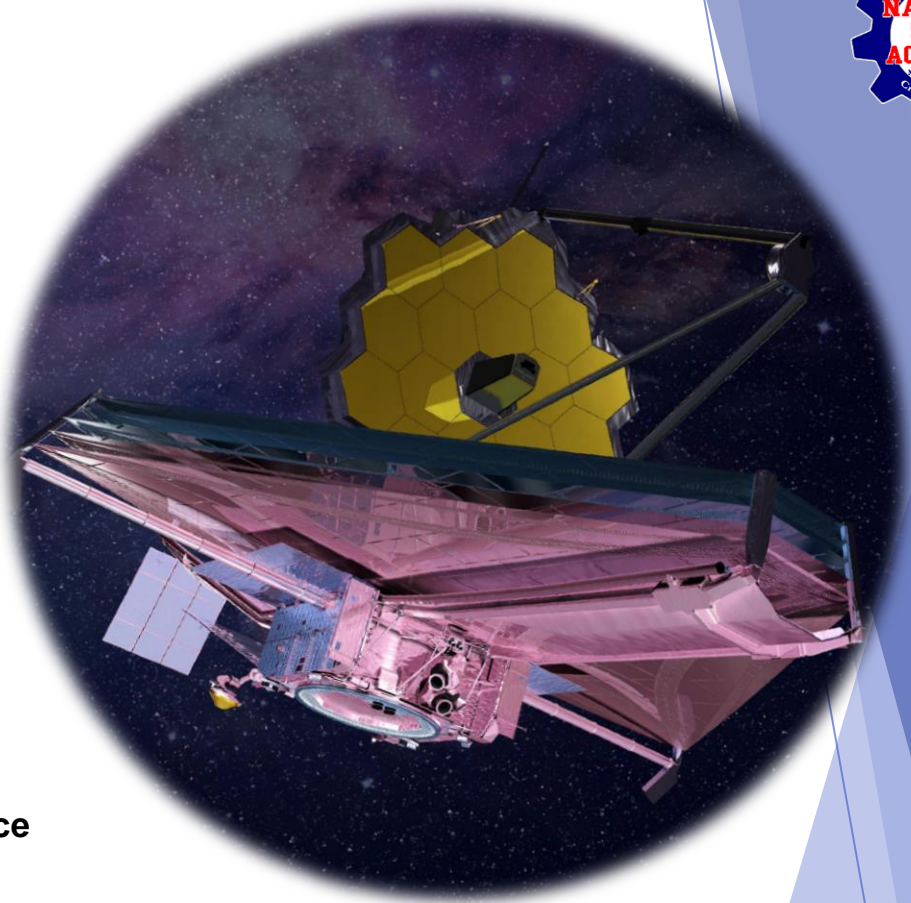

The Next Generation Space Telescope

**STEM Educator Workshop
For Grades 3-12
March 11, 2023
9:00 am - 3:00 pm
at the
Museum of Aviation
Warner Robins, GA**

The James Webb Space Telescope (JWST) follows Hubble into orbit as the premier space observatory! It is an infrared astronomy telescope and extends the discoveries of Hubble. The workshop will provide teachers with hands-on activities, data information produced by JWST, and resources for use in the classroom!

*Presenter: Frank Lock, Retired Physics Teacher
NASA Network of Educator Astronaut Teachers
(NEAT) Member*
