

**MAY 30 and 31 | 8:30 - 2:30**  
AT THE MUSEUM OF AVIATION'S NATIONAL STEM ACADEMY  
EDUCATOR RESOURCE CENTER | WARNER ROBINS, GA

# Middle Georgia Robotics Institute

Professional Development Two-Day Workshop  
For 3rd-8th Grade Public, Private, and Homeschool Educators

Register now for the opportunity to participate in our Robotics Institute at The National STEM Academy's Educator Resource Center. Seating is limited so make sure to register early. Educators will use technology to learn about circuits, programming, robotic parts, and functions during this exclusive 2-Day Robotics Institute that will be taught by certified STEM Instructors from the Educator Resource Center's STEM Educator Ambassador Program. Various robotics kits will be utilized to support the STEM Curriculum Standards. Participants will explore with Dash & Cue; LEGO WeDo, Mindstorm & SPIKE Prime; Sphero Bolt; EVO Ozobots; Drones and more! All registered educators will receive a complimentary set of robotic resources for their classroom.
