

# *NASA is Everywhere Space Agriculture*

**STEM Educator Workshop  
For Grades K-12  
May 6, 2023  
9:00 am - 3:00 pm  
at the  
Museum of Aviation  
Warner Robins, GA**

**If our future means living and working in space, on the Moon or Mars, we must prepare our Spacefarers for survival in space! NASA programs are working on Astronaut Life Support and Sustainment now, but our students could be the ones making that happen as a career. Join us to explore some exciting ways to bring the basics of Agriculture to space!**

*Presenters: Belynda Songer & Kimberly Barkemeyer  
STEM Educator Ambassadors*

**[Register Here!](#)**

**No cost for Educators!  
Participants will receive a  
Certificate of Completion  
Plus, a \$25 stipend!**
